

Excess Casualty Insurance Solutions

Cat Excess Liability is focused on providing the best solutions available for our major corporate clients. Sophisticated buyers of insurance seek broad coverage, local service, flexibility, and responsiveness, while at the same time demanding expert underwriting experience and the backing of sound and solid financial strength. This is precisely the service that Cat Excess Liability provides.

Cat Excess Liability, a division of Chartis, consistently anticipates the requirements of the marketplace and is committed to providing secure, high level excess casualty solutions.

Cat Excess Liability has been providing insurance solutions to all classes of business since 1993, with specific industry specialization in energy, transportation, healthcare, life sciences, and construction.

Coverage Highlights:

- High excess limits available, up to \$150 million
- Minimum attachment point of \$50 million
- Multiple policy forms available, to best suit policyholders' needs
 - Integrated Occurrence
 - Follow-Form Occurrence
 - Follow-Form Claims-made
 - Follow-Form Dual Trigger
- Punitive damage coverage that can be included within the policy
- CrisisResponse® XS - provides up to \$250,000 additional limits outside the policy limit and excess of the Chartis insurer's lead umbrella policy for expenses relating to a Crisis Management Event

Cat Excess Liability's clients have access to Chartis':

- Claims-handling experience, including a specialized claims team, with 200 technical staff dedicated exclusively to excess casualty claims; and
- One point of contact for claims handling when other Chartis insurers' casualty placements are in the same tower of insurance
