

SOCMA Member Select Insurance

The Society of Chemical Manufacturers and Affiliates (SOCMA) has teamed with Chartis to offer SOCMA members customized environmental coverage that recognizes their efforts to implement risk management programs. Chartis is a world-leading property-casualty and general insurance organization, bringing nearly three decades of experience to the environmental insurance marketplace.

Fast Facts

Member benefits provided through Chartis:

- Access to online tools and guidance to help reduce environmental, health, safety, and security risks.

Contact Dr. J. Holland Jordan,
Director of ChemStewards®,
at jordanh@socma.com or
call (202) 721-4162.

SOCMA's Member Select Insurance Program supports ChemStewards® ongoing work to assist SOCMA member companies in improving their environmental, health, safety, and security performance improvement efforts. Through the SOCMA Member Select Insurance Program, participants that incur verification costs after successfully completing ChemStewards® audits are granted underwriting risk management credits on policy premiums.

Policy Flexibility and Breadth

The underwriters and engineers at Chartis understand the different needs and risks faced by different chemical manufacturers. From batch, custom and specialty chemical companies to large, multinational commodity producers, Chartis' products are both flexible and robust, providing insurance solutions to SOCMA members of every size.

The Environmental and General Liability Exposures (EAGLE) Program® issued through Chartis provides both enhanced general liability and pollution coverage in the same policy. EAGLE policies can be customized to meet the needs of SOCMA members large and small. Additional limits of liability and commercial auto coverage are also available through Chartis' EAGLE Umbrella and EAGLE Auto policies. Chartis can also facilitate SOCMA members' access to property, marine, workers' compensation, E&O and D&O insurance to help address a wide range of risks and provide a single source for many of your insurance and risk management needs.

The Chartis Advantage

In addition to the day-to-day risks of running a business, chemical manufacturing companies must deal with potentially catastrophic losses from accidental releases and spills, injury or damage from their products, and natural and man-made disasters. Through the SOCMA Member Select Insurance Program, Chartis helps address the most challenging environmental risks faced by SOCMA members.

All SOCMA Member Select policyholders have access to the following complimentary value-added programs designed to help reduce risk before an incident happens, and mitigate the financial impact after an incident occurs.

- Access to Pollution Incident and Environmental Response (PIER) program, a 24-hour emergency response network for pollution incidents
- Loss control audits
- The Specialty Claims Assistance Network (SCANSM) provides Chartis insureds with access to resources to assist with matters involving water or mold damage
- Chartis' pollution claims operation of 80+ claims specialists devote expertise to environmental claims of all types, such as mold, transportation spills or large toxic tort cases
- The RiskTool System, an online library of risk management tools, including MSDS documents, training materials and OSHA compliance tools
- Complimentary review of indemnity provisions in standard contracts to help policyholders assess and potentially facilitate effective transfer of environmental risk

SOCMA members insured through the SOCMA Member Select Insurance Program will receive competitive pricing and recognition of third-party ChemStewards® verification costs through the application of risk management underwriting credits, with a value of up to \$6,000, upon renewal.

Chartis is the marketing name for the worldwide property-casualty and general insurance operations of Chartis Inc. For additional information, please visit our website at www.chartisinsurance.com. All products are written by insurance company subsidiaries or affiliates of Chartis Inc. Coverage may not be available in all jurisdictions and is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain coverage may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds and insureds are therefore not protected by such funds.
